Core Features

1	2	3	4	5	6
Stream to multiple platforms including Vimeo, Livestream, Facebook, YouTube, Twitch, Zixi™, IBM Cloud Video™, Adobe Media Server™, Wowza Streaming Server™, and more.	Record in broadcast quality MJPEG AVI with up to 4 simultaneous isolated recordings or H.264 MP4.	Give others (or yourself) access to the Livestream Studio system directly from a supported browser with Studio Web Control.	Invite anyone to join your live broadcast using a compatible browser and their webcam. Simply send a link generated from Studio, and instantly see their live low latency video.	Cut or transition between Preview and Program. Preview your GFX overlays before transitioning them into Program.	Utilize up to 25 live inputs via webcams, Blackmagic Design devices, Magewell devices, or screen captures, plus 10 remote camera sources, 10 RTMP inputs, 2 media tracks, and 3 GFX tracks.
7	8	9	10	11	12
Create powerful, layered broadcast graphics. Add comments from social channels like Facebook, Twitter, and YouTube, remove backgrounds with chroma key, and embed animated graphics via image sequences or HTML layers.	Import video files or record into a Media Player list. Scrub your video to find the ideal moment, trim in/out points, and set clips to autoplay with your transitions.	Create a wireless, multi-camera production using desktop computers, RTSP, NDI, Mevo cameras, PTZOptics cameras, Broadcaster Pros, and more as videos sources.	Convert different input sources that will match your project format, and provide a great output and experience for your viewers.	Mix audio with accurate PPM displays, volume adjustment, monitoring, and track grouping.	Switch live sources in frame-accurate HD or 4K, including advanced 4K cropping (up to 4 virtual cameras from a single input). Use up to four external displays for multiview.

Livestream Studio Software Features

Transform your computer into a professional live production control room with Livestream Studio. Input multiple feeds, add graphics, master audio, and stream in one robust, easy-to-use package.
